PRESS RELEASE JAN 2016

## STUDIOFORMA WINS EUROPEAN INTERIOR DESIGN AWARD

**Zurich, Switzerland** – In its quest to discover the best interior designers in the world, the International Property Awards invited companies to present their finest work. The judging committee chaired by two members of the House of Lords scrutinised hundreds of entries and STUDIOFORMA was a top scoring entrant for the category INTERIOR DESIGN APARTMENT for its Apartment Makeover Project in Zurich.

The International Property Award is the world's largest, most prestigious, and widely recognised programme. The 2015/16 International Property Awards has received more than 2.000 entries from over 110 countries. The total worth of the competing projects reached an astronomical figure of £20 billion. The rewards received over 400 entries from 61 countries for the INTERIOR DESIGN category.

The judges not only look for the most impressive and innovative projects, they also examine the sustainability and eco-friendliness of every property. After a year-long evaluation the judging panel of 70 experts revealed the final results on December 7th 2015 during a presentation ceremony at the JW Marriott Grosvenor House Hotel in Mayfair, London.

STUDIOFORMA has been named "Best in Europe" in the Interior Design Apartment category at the final summit. STUDIOFORMA competed against the best property professionals in the World to win the title of "Europe's Best", property's highest accolade, with the project "Apartment Makeover, Lake Zurich".

**Alex Leuzinger**, Founder of STUDIOFORMA, accepted the prize during the glittering award ceremony in London: *"The most important was not so much how the overall apartment will look, but how it will make the client and his family feel. I'm not talking about the implicitness of well-selected material, texture, décor and lightning. The focus clearly was, to understand and to indulge my client's passion for a certain lifestyle and to translate even playful ideas and habits into a sophisticated interior environment."*
